Language  
Methods and Techniques of Teaching (Lecture III)

1. a. The positive and negative behaviours exhibited by teachers determine, to a great extent their effectiveness in the classroom and, ultimately the effect that they have on a student's achievement.

Teacher in school as well as college have been my role model but they are my role models due to their personal as well as professional qualities. The qualities that made her stand out from others have been listed below:

1. Teacher-student relationship.
2. Effective Teaching - the quality of simplifying the lessons to an extent where concepts are clear and embedded till date.
3. Response to students with respect, even in difficult situation.
4. Motivated me to reach goals.
5. Immaculately dress sense.
6. Was structured, yet flexible and spontaneous.
7. Positive interaction with students outside classroom.
8. Guided and monitored my progress.
