

Examples of Algorithms and Flowcharts

1. Sum of Two Matrices

Algorithm

1. Start.
2. Read two matrices A and B of size $m \times n$.
3. Initialize a result matrix C of the same size.
4. For each element $C(i,j) = A(i,j) + B(i,j)$.
5. Display matrix C.
6. Stop.

Flowchart

A flowchart will include:
